Citizen Police Academy

In 2004, the seventh year of the Citizen's Police Academy, 26 citizens graduated from the program. The purpose of the Citizen's Police Academy is to provide an opportunity for the sharing of knowledge between the police and the citizens, creating a mutually beneficial relationship developed through an understanding of the role of police officers in the community. The Academy is designed to meet specific concerns of the citizens through classroom presentations; hands on participation; and, demonstrations.

The Police Citizen's Academy has been a great success and the department will continue to offer the class as long as there is interest in the program. Its success has continued to exceed our expectations and we have had individuals from other police departments sit in on our classes to gain knowledge on how to present an academy for their communities.

The keynote speaker for the spring 2004 class was Kelly Joyce, a general assignment reporter for WITI, Fox 6 and the speaker for the fall 2004 class was Johnnie Smith, Administrator of Wisconsin Emergency Management.

The following is a list of the 2004 Police Academy Graduates:
