V. New Business

A) Discussion on Village's Tax Increment District (TID) #2, #3, and #4.

Mr. Hall gave an update on all three TIF Districts. Trustee Awe asked if other TIF revenues could be used on TIF #4. Mr. Hall responded that it would need to be considered distressed and then the state would have control of the TIF. That is a last resort and therefore we will wait to consider that option. Trustee Baker pointed out that a lot of great improvements were done in the Original Village which was part of the Village's Comprehensive plan in regards to TIF #4.

B) Discussion on Department of Public Works (DPW) Building (Repair or Replace?)

Mr. Hall reviewed the history of this discussion regarding the option of repairing or replacing the public works building including what actions have been taken by the village to involve the public to gain public opinion on the situation. Trustee Boschert asked about what would happen if we built in the same location it sits currently. Mr. Piotrowski explained how the potential for repairing TIF 4 would be eliminated and it would keep the public works facility in a primarily residential location.

It was moved by Trustee Springman and seconded by Trustee Baker to approve the building of a new public works facility. The motion carried 6-1, with Trustee Boschert opposed.

C) Approve the 2016-2020 Capital Improvement Plan (CIP)

REQUEST FOR CONSIDERATION

COMMITTEE:	Finance/Public Works Committee
ITEM DESCRIPTION:	Outsourcing PT Accountant Position
PREPARED BY:	Susan L Hudson, Treasurer / Comptroller 
REPORT DATE:	October 5, 2015
MANAGER'S REVIEW/COMMENTS:	<input checked="" type="checkbox"/> No additional comments to this report. <input type="checkbox"/> See additional comments attached.
RECOMMENDATION:	Outsourcing and New Auditing Firm
EXPLANATION:	<p>The Village's Part Time Accountant position became vacant on May 21, 2015. Because this is a part time I felt it would be hard to find a qualified person to fill this role. I spoke with our auditing firm CliftonLarsonAllen (CLR) for some options. They gave three options: 1) Advertise for a part time person – which they also felt would be hard to find a qualified person willing to work part time. 2) Make the position full time – I can't justify the position as full time since the work load doesn't warrant it. 3) Outsourcing/Consulting.</p> <p>I chose option 3) Outsourcing/Consulting which our current auditing firm offers. Cost proposal attached. They will be a big part of the auditing process which will free up my time to focus on other issue at hand.</p> <p>Because CLR will be our consulting firm we can no longer use them as our auditor. CLR recommended we use Sikich as our auditor. Cost proposal attached.</p> <p>By going the outsourcing/consulting route the Village is looking to save \$31,854 over the next three years. We are not obligated to a three year contract with either firm. If we decide that this option isn't working CLR will help training the person we hire.</p> <p>I'm asking the Committee and Board to approve using CliftonLarsonAllen as our outsourcing/consulting firm and Sikich as our auditing firm.</p> <p>Please feel free to contact me if you have any questions or concerns.</p>

The Village's key engagement team members will be supported by staff on the firm's government services team.

Frederick G. Lantz, CPA

Engagement Partner

Fred will be responsible for the overall management of the audit, including developing and coordinating the overall audit plan. Fred would perform the in-depth review of all workpapers and the review of the Village's financial report. Moreover, our firm's philosophy is to have the engagement partner on location during the completion of the majority of fieldwork. Therefore, Fred will be present at the Village's offices during both our preliminary and final fieldwork.

Fred is responsible for providing technical services to Sikich's clients in all areas of governmental accounting, auditing, financial reporting, budget development, revenue and expenditure forecasting, and cash and debt management. Prior to joining Sikich, Fred was the assistant director for the Technical Services Center of the Government Finance Officers Association of the United States and Canada (GFOA), where he was a nationally recognized expert in the state and local government industry. At GFOA, Fred was responsible for managing the Certificate of Achievement for Excellence in Financial Reporting Program, providing accounting, auditing and financial reporting assistance to state and local government officials and their auditors, and serving as a liaison to the Governmental Accounting Standards Board. Fred also developed courses and served as lead instructor for governmental accounting, auditing and financial reporting training courses. He is a nationally recognized speaker, having spoken at state GFOA and CPA Society meetings and conferences.

Fred received his Bachelor's degree in Accounting from Northern Illinois University, and also is a graduate of the Advanced Government Finance Institute at the University of Wisconsin at Madison.

Carla is responsible for engagement management including scheduling, supervision of the quality and completion of audit procedures, and delivery of final reports. She has more than 26 years of experience primarily serving not-for-profit organizations, governmental units, employee benefit plans, and financial institutions. She has extensive experience with audits of federal programs under the Single Audit Act (A-133).

Carla received her Bachelor's degree in Accounting from Bradley University.

Firm Qualifications and Experience (Continued)

Brad Lutgen

Partner, Security and Compliance - Technology

Based in our Milwaukee office, Brad oversees all of the marketing and sales activities for the firm's security and compliance division. His main focus is leading the business development team for the practice. Brad is passionate about helping clients meet their compliance mandates and improve their security posture. Marc A. DeVries, CPA

Director of Government Services - Wisconsin

Marc will be responsible for day-to-day coordinating and conducting the financial and single audits and internal control reviews for the Village.

Marc DeVries, CPA, has more than 20 years of combined experience in state and local government administration, consulting and auditing, as well as not-for-profit accounting and auditing. He began his career as an auditor in the government and not-for-profit sector, serving public sector clients prior to becoming a county finance director for five years. During this time, Marc directed the budget and finance department to earn its first Award for Excellence in Financial Reporting from the Government Finance Officers' Association; implemented a new financial accounting software system; and led the county through a series of budget revisions including revenue enhancements and strategic expense cuts without impacting service levels. Currently, Marc is responsible for audit engagement planning, communication of audit matters with funding sources and governing boards, report preparation, and supervision of audit fieldwork teams.

Marc received his Bachelor's Degree in Accounting from Calvin College in Grand Rapids, Michigan.

Additional Professional Staff

Other professional staff assigned to the engagement will be full-time employees of the firm and have a minimum of one to three years of auditing experience. In addition, all professional staff assigned to government engagements meet and usually exceed the CPE requirements contained in the U.S. Government Accountability Office, Government Auditing Standards (2011). Moreover, our government staff possess a specific knowledge of local government accounting and reporting requirements and their application for local governments. This is achieved by attending at least 40 hours per year of a combination of external courses sponsored by the AICPA, ICPAS, GFOA and IGFOA, as well as internal courses.

This enables our firm to staff our governmental engagements with qualified professionals in the industry, providing valuable services to our governmental clients during the audit and throughout the year. We can assure you that our professional staff would not need any "on the job accounting or financial reporting training" by your staff. Additionally, we can assure the Village the quality of staffing for a multi-year engagement, even if a change in personnel is required, subject to your approval.

Our firm offers several employee retention programs, including tuition reimbursement, CPA review and exam assistance, a computer purchase program, travel assistance and more. We have been named as a Best Place to Work for several years, both on a local and national level.

Firm Qualifications and Experience (Continued)

Specific Audit Approach

From identifying expectations to executing a plan to preparing for next year, our approach is holistic and always forward-thinking.

For the Village of Brown Deer, our approach satisfies a number of requirements, including high-quality service, access to senior resources and specialization in the government industry. We strongly believe Sikich is the firm that can offer you all of these and more.

We will tailor this engagement to the Village's specific needs—always with a view toward identifying new opportunities for financial and operational improvement. Procedures are designed to give full attention to evaluating significant areas, including those that present the greatest risk. Sikich's holistic approach will address critical compliance and risk management needs.

Before embarking on this engagement, we will make certain to have a clear understanding of your mission and strategic direction. We do this by identifying and addressing risks and helping you ensure financial strength. We strongly believe there is no such thing as too much communication, not only during the engagement, but also throughout the year.

Audit Standards

The objective of our audit is to issue an unmodified opinion on the Village of Brown Deer's governmental activities, business-type activities, each major fund and the aggregate remaining fund information that collectively comprise the Village's basic financial statements. The audit will be conducted in accordance with generally accepted auditing standards as set forth by the American Institute of Certified Public Accountants. Our firm will issue an opinion on the basic financial statements and will subject the combining and individual fund financial statements and schedules and any other supplementary information to the auditing procedures applied in our audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America and will provide an opinion on it in relation to the financial statements as a whole.

In addition, we will apply certain limited procedures to the Required Supplementary Information. These limited procedures will consist of inquiries of management regarding the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We will not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Firm Qualifications and Experience (Continued)

We will provide the following services to the Village:

- › Audit of the basic financial statements of the Village for the fiscal year ending December 31;
- › Preparation of up to 30 hard copies and an electronic copy (.pdf) of the comprehensive annual financial reports for the Village and the Transit System (report covers, dividers, introductory section, MD&A and certain statistical data to be provided by the Village);
- › Preparation of up to 30 hard copies and an electronic copy (.pdf) of the management letter for the Village, communicating any material weaknesses and significant deficiencies found during the audit and our recommendations for improvement;
- › Retain workpapers for 7 years in accordance with firm standards;
- › Reporting to the Board of Trustees in accordance with Statement on Auditing Standards (SAS) No. 114, *Communications with Those Charged with Governance*; and
- › Exit conference(s) with Village Officials to present the completed audit and related materials.

We will not audit the statistical or introductory sections of the comprehensive annual financial report and accordingly, will not express an opinion on the information contained in these sections.

Wherever possible, we will utilize your schedules to maximize efficiencies and contain audit costs. We request that the Village provide us with the basic information required for our audit.

Use of EDP Software

Our process is completely paperless. We prefer any information provided to us to be in electronic format. Consistent with this preference, we will request downloads of your trial balances and general ledger detail. We use a software package called IDEA (Interactive Data Exploration and Analysis) to analyze trial balance transactions, determine sample sizes, and select samples. IDEA is a powerful tool that is also often used in forensic auditing. We use IDEA in this capacity when analyzing your journal entries for potential fraud, as we are required to do in every audit.

Further, we have a secure data portal where Village employees can log in and upload large and/or sensitive data. All data uploaded is automatically deleted in two weeks. This prevents unnecessary exposure to other unsecured internet based data transmission formats such as email, and also prevents data from other hard memory formats such as flash drives from falling into the wrong hands.

Practical and Constructive Management Letter Comments

We believe the management letter is an important part of the engagement, and we encourage all members of our engagement team to give thoughtful consideration toward developing constructive comments within the constraints of the overall engagement. Our policies regarding management letters adhere to the Professional Standards of the AICPA. If significant deficiencies and material weaknesses in internal controls are noted during the audit, they are required to be communicated in writing to those charged with governance. Items of an immaterial nature (i.e., clerical problems, minor procedures or reporting problems, etc.) are communicated to management. In both cases, we adhere to a strict firm policy that all comments and recommendations are discussed in preliminary form with appropriate personnel prior to their communication. This allows for clarification of misunderstandings, miscommunication or compensating controls or factors which may be in place.

Additional Resources and Services

With more than a dozen services, our areas of expertise are oftentimes complimentary of one another. How else can we help you meet your government's goals?

Many times, the challenges for which you enlist Sikich's help may be faced more effectively by integrating several of our services. Based on our initial conversations with you, we believe that the Village could benefit from some of the additional services we offer. Take a look at what we offer, and talk to your engagement partner about how these services may complement what you are already seeking.

Dispute Advisory

Disputes of any kind or size can be difficult to handle on your own. For example, what would happen if you began suspecting employee fraud within your organization? A dispute advisory expert can handle every aspect, from insurance claim preparation and being the liaison with law authorities, to creating a fraud prevention program and improving your organization's internal controls.

Executive Search & Staffing

Whether you have an immediate, full-time job vacancy to fill or are faced with an unexpected short-term staffing need, you need access to the best talent in all positions across a range of disciplines and industries. When you work with Sikich's search and staffing team, you can find candidates for high-level positions that fit your personal, professional and cultural qualifications.

Human Resources

Your people are a large part of what makes up your organization. Recruiting, training and retaining employees are vital parts of ensuring your organization continues to provide only the best for your constituency. With services such as recruiting and onboarding, compensation and compliance, employee benefits and more, you can better understand what will keep your employees happy and productive.

Marketing

Public sector entities compete for economic development opportunities just as private entities do. The key to success is setting yourself apart from other communities through an effective branding strategy. The effectiveness of your marketing efforts can make or break your organization's success. From eye-catching logos to print and digital collateral, every piece must work for an intended audience. By delivering the right stories and amplifying those messages, you will properly position your organization in the marketplace.

Performance-Based Strategic Planning

In an environment where there is increasing pressure for governments to be more efficient, effective and transparent, strategic planning allows an organization to engage stakeholders, focus on its mission, and logically establish short and long-term goals. Our approach, performance-based strategic planning, guides the organization toward its most productive activities and focuses on an institutionalized process. The strategic planning process is a true transition, where Sikich facilitates governments in:

- › Developing ideals about what they aspire to
- › Transforming ideals into ideas to meet goals
- › Converting ideas into specific, actionable items
- › Constructing performance measures

Additional Resources and Services (Continued)

We ensure the results of strategic planning meet client expectations by filtering goals, objectives and/or strategies with the organization's internal capacity and available resources. The process of performance-based strategic planning has proven to assist governments in fulfilling the ideals of their community and accomplishing goals through measurable, reportable actions.

Process Improvement

Processes truly define organizations, but are often forgotten when seeking root causes to problems or managing more efficient and effective services. Improvements to existing processes—ranging from development review to utility billing—have the potential to decrease cycle time, increase quality and result in higher customer satisfaction. Sikich employs a customer-centric approach to process improvement by involving internal and external customers to understand and make meaningful improvements while continuing to meet their needs.

Public Relations

Achieve a higher media profile, greater mindshare among your constituents and proper positioning in the marketplace with a thoughtful, research-based and integrated approach to public relations. From overall positioning to media relations, conveying the right stories to the right people is critical in an effective public relations program.

Technology: ERP & CRM Solutions

Your organization can better stay on track with the right Enterprise Resource Planning (ERP) or Customer Relationship Management (CRM) solution. Whether you are at the start of your search for a new solution or need a new partner to fix a failed implementation, you will have the freedom to explore a variety of products to identify the technology investment that will best capitalize on your potential.

Technology: IT Services

Staying ahead of, or even simply keeping up with, continually changing and complex technology developments can be challenging. Organizational management software, cloud solutions, strategic information technology and IT consulting can all drive your organization toward increased productivity—if implemented the right way.

Technology: Security and Compliance

Keeping your organization safe from data breaches and other information security concerns is critical, especially given the vast number of organizations that have been compromised in the last couple of years. Understand where the vulnerabilities in your network lie by obtaining independent, unbiased and technically qualified security assessments—from penetration testing to forensic analyses.

REQUEST FOR CONSIDERATION

CONFIDENTIAL

COMMITTEE CONSIDERATION: Community Development Authority
ITEM DESCRIPTION: Recommendation on the sale and marketing of the Public Works facility, 8717 N. 43 rd Street
PREPARED BY: Nate Piotrowski, Community Development Director
REPORT DATE: October 8, 2015
EXPLANATION: <p>Recently the Village Board directed Staff to prepare plans for the rebuilding of a new Public Works facility (DPW). As part of this effort Staff would like to begin marketing the existing site in hopes of finding a developer for the property. As part of this effort Staff envisions creating a Request for Proposals (RFP) and either personally soliciting developers for a response or hiring a real estate firm to handle the marketing of the RFP.</p> <p>Staff would like to follow a methodology recently employed by the City of Mequon where they listed an RFP for their 13 acre DPW site for \$1.00. In this case Staff is looking for a recommendation from the CDA to market the property for the same \$1.00 price.</p>
RECOMMENDATION: Staff believes a \$1.00 sales price is worthwhile because: <ol style="list-style-type: none">1) It enhances marketing efforts of the property by providing a very attractive price2) It allows the Village to remain competitive with the price set in nearby Mequon3) It allows the Village to provide "assistance" in the struggling TIF #4 without additional borrowing

REPORT DATE: October 6, 2015
VILLAGE MANAGER'S REVIEW/COMMENTS: <input type="checkbox"/> No additional comments to this report. <input checked="" type="checkbox"/> See additional comments attached.

Explanation:

The Village of Brown Deer requests to change their email carrier from Time Warner to a Microsoft Exchange Enterprise License. This would include an automatic back-up of emails as well as a 3-year support and spam filter. Currently emails are not being backed up to a server. State statute mandates municipalities keep all emails for a total of seven years. Therefore, changing our email carrier will give us access to a system that has the capacity to store our 96 employee's emails for a seven year cycle.

Proposal Inclusions: We have **included** the following items within our proposal:

- Quantity 2 – Microsoft Windows 2012 R2 Standard – government license pricing
- Quantity 2 – Microsoft Exchange Server Standard 2013 - government license pricing
- Quantity 100 - Microsoft Exchange Server Standard Client Access License – government license pricing
- Quantity 100 - Microsoft Exchange Server Enterprise Client Access License – government license pricing

Optional Solution: We have **included** the following options to enhance

the system performance: Add Fortinet FortiMail Spam Filter

- Quantity 1 – FortiMail Spam Filter - Virtual Appliance
- Quantity 1 – FortiCare Support - 24x7 - 1 Year – (Optional 3-year maintenance is available)

Proposal Notes & Exclusions: The following items are **not included** the proposal pricing and should be considered:

- Labor would be drawn from yearly labor agreement – 24 Exchange & 8 FortiMail
- Overtime / expedited install costs.
- Additional network electronics – Installation will be performed on the customer existing servers
- Government compliance policies on email storage will need to be verified before solution is selected.

Pricing:

Microsoft Exchange Enterprise Licenses for 100 users	\$18,098.56
Optional FortiMail Spam Filter w/ 3-year support	\$5,671.40

FY 2016-2020 Capital Improvement Plan Project Description

Project #: DPW/16/04

Department: Public Works

Project Name: Skid Steer Replacement

Total Project Cost: \$65,000 **Estimated Life of Project:** 10-years

Expenditure Detail:

Year	2016	2017	2018	2019	2020
Budget	\$65,000	\$	\$	\$	\$

Funding Sources: Levy Debt Grant Donations Fund Balance

Project Description: Replacement of the skid steer is necessary due to the rising maintenance costs, and safety to laborers. The equipment will be purchased through a local Bobcat Plus retailer or equivalent dealer. Three (3) quotes are anticipated from various skid steer dealers (i.e. New Holland, Cat, Bobcat Plus, etc.). The expected life of the requested equipment is 10 years. The existing skid steer is used weekly throughout the year. The skid steer is used for all special event set-ups, winter operations, landscaping, etc. The skid steer is used in almost every division and operation at DPW. Other departments such as Park & Rec also borrow the skid steer for activities within their own operation. The age of item to be replaced is 10 years in 2016. The annual maintenance costs are \$1,000 + labor due to the aging condition. The existing equipment will be auctioned using the State of Wisconsin surplus website. The estimated sold amount is \$10,000. The estimated cost of the new skid steer was determined from recent bid history for this type of equipment.

Project Justification: The skid steer is used in every operation of DPW throughout the year. The skid steer is also used by other Departments such as Park & Rec. The skid steer is critical to special event set-up too.

RECOMMENDATION:	Approval for the purchase of a Toolcat 5600 including accessories.				
EXPLANATION:					
<p>DPW is requesting the purchase of a new Bobcat Toolcat to replace the existing unit. The current Toolcat is a Bobcat Model 5600 w/ bucket. The Toolcat is used in all divisions of DPW including cross over services with the Park & Rec Dept. and Water Utility. This important equipment is used on average weekly throughout the year (508-hours in 2013 and 373-hours in 2014).</p> <p>The current Toolcat, Bobcat 5600 (Equip. The existing unit will be 10-years old in 2016. Rising maintenance costs and reliability are concern with the existing unit especially considering the heavy use and importance supporting the various divisions/departments. For instance, the operator was stranded on several occasions during the past winter season during sidewalk clearing operations (2014-2015).</p> <p>The existing equipment is in need of replacement for the following reasons:</p> <ul style="list-style-type: none"> • Age • Rising maintenance costs • Exceeded useful life <p>For replacement DPW solicited one (1) quote from Bobcat because Toolcat is a proprietary unit. The only other close comparison is the John Deere Gator, but this was ruled out for operational reasons (i.e. no front bucket and existing accessories aren't compatible such as the snow blower). The results are listed in the table below:</p>

FUNDING:

The Toolcat was included in the 2016 CIP budget at a cost not-to-exceed \$65,000 (Project No. DPW/16/03) which will be paid for using existing fund balance. The equipment will be purchased out of Acct. No. 320-000-73-5-81-30.

Funding Summary:

Budget = \$65,000

Actual = \$44,205

Balance = (\$20,795)*

*The balance will be re-applied to the fund balance for future equipment purchases.

CONCLUSION:

FY 2016-2020 Capital Improvement Plan Project Description

Project #: DPW/16/03 **Department:** Public Works

Project Name: Toolcat Replacement

Total Project Cost: \$65,000 **Estimated Life of Project:** 10-years

Expenditure Detail:

Year	2016	2017	2018	2019	2020
Budget	\$65,000	\$	\$	\$	\$

Funding Sources: Levy Debt Grant Donations Fund Balance

Project Description: Replacement of the toolcat is necessary due to the rising maintenance costs, and safety to laborers. The equipment will be purchased through a local Bobcat Plus retailer. Only one (1) quote is anticipated considering that Bobcat is the only supplier of toolcat machinery. The toolcat is preferred by DPW over alternate comparable equipment due to functionality and versatility. The expected life of the requested equipment is 10 years. The existing toolcat is used weekly throughout the year. The toolcat is used for all special event set-ups, sidewalk snow plowing, landscaping, etc. The toolcat is used in almost every division and operation at DPW. Other departments such as Park & Rec also borrow the toolcat for activities within their own operation. The age of item to be replaced is 10 years in 2016. The annual maintenance costs are \$1,000 + labor due to the aging condition. The existing equipment will be auctioned using the State of Wisconsin surplus website. The estimated sold amount is \$10,000. The estimated cost of the new toolcat was determined from recent bid history for this type of equipment.

Project Justification: The toolcat is used in every operation of DPW throughout the year. The toolcat is also used by other Departments such as Park & Rec. The toolcat is critical to special event set-up too.

REQUEST FOR CONSIDERATION

COMMITTEE:	Finance & Public Works, Village Board

PREPARED BY:	Matthew S. Maederer, PE, Director of Public Works/Village Engineer
REPORT DATE:	October 5, 2015
MANAGER'S REVIEW/COMMENTS:	<input type="checkbox"/> No additional comments to this report. <input type="checkbox"/> See additional comments attached.
RECOMMENDATION:	Approval for the purchase of a 5-YD Patrol Truck.
EXPLANATION:	<p>DPW is requesting the purchase of a new 5-YD Patrol Truck (Western Star 4700SF Chassis & Burke Controls/Accessories) to replace the existing patrol truck (No. 76). The current Patrol Truck No. 76 is a 5-YD International chassis w/ Brake & Equipment controls/accessories. Truck No. 76 is primarily for winter operations, however, the truck is also used during summer street work and stormwater re-ditching projects. In 2013 Truck No. 76 was used for 400-hours and for 361-hours in 2014.</p> <p>The current 5-YD Patrol Truck No. 76 was purchased in 2003 for \$97,494 (including chassis and controls/accessories).</p> <p>The 5-YD Patrol Truck No. 76 has an estimated life between 10-years and 13-years according to the manufacturer. The existing unit will be 13-years old in 2016. Rising maintenance costs and reliability are a concern with the existing truck especially considering the heavy use and importance supporting the various divisions (most importantly winter operations).</p> <p>The existing equipment is in need of replacement for the following reasons:</p> <ul style="list-style-type: none">• Age• Rising maintenance costs• Exceeded useful life <p>For replacement DPW solicited two (2) quotes for chassis (Lakeside International and Truck County Western Star) along with one (1) quote from Burke Truck & Equipment for controls/accessories.</p> <p>The results are listed in the table(s) below:</p>

Chassis Vendor	Price
Lakeside International 7400 SFA 4x2	\$85,775.00
Truck Country Western Star 4700SF	\$83,824.00***

***The Truck Country Western Star price includes an add-on to increase engine horsepower up to 350HP (from the standard 300HP) which is +\$600 and also a discount of (\$500) if the order is placed prior to 2016.

Controls/Accessories Package	Price
Burke Truck & Equipment	\$74,130.00***

***Includes the add-on feature (\$1,400) of a right air-bag suspension for the wing-plow.

FUNDING:

The 5-YD Patrol Truck No. 76 was included in the 2016 CIP budget at a cost not-to-exceed \$175,000 (Project No. DPW/16/01) which will be paid for through property tax levy. The equipment will be purchased out of Acct. No. 320-000-73-5-81-30.

Funding Summary:

Budget = \$175,000
 Chassis = \$83,824
 Controls/Accessories Package = \$74,130
TOTAL = \$157,954
 Balance = (\$17,046)*

*The balance will be re-applied to the fund balance for future equipment purchases.

CONCLUSION:

DPW staff (Director, Ops Supervisor, and Mechanic) is recommending the purchase of the Truck Country Western Star 4700SF chassis with Burk Truck & Equipment controls/accessories package for the complete price of \$157,954.
