

North 60th Street - Weekly Update 1 (6-22-15 to 7-04-15)

Road Closed to Through Traffic

A Look Back:

- North 60th Street is closed to through traffic.
- Trees and branches that were in the way of construction were removed.
- Culvert pipes were installed to accommodate new ditch locations.
- Asphalt pavement was pulverized, the material will be used for the new road base.
- Topsoil was stripped from the grading area to prepare the project for grading work.
- Temporary mailboxes are installed and in use.
- Grading for the new sidewalk, ditches and road widening began.

One of Three Temporary Mailbox Stations

A Look forward:

- Grading for the new sidewalk, ditches and road widening will continue.
- Concrete curb and gutter will be poured at the intersection radii on July 8th
- Sidewalk work will start on July 7th. Once the sidewalk is poured there will be no driveway access for 5-7 days. Please park along sideroads. The contractor will provide notice of the driveway closures and temporary parking permits prior to the closure.

Pulverizing the Roadway

Remember North 60th Street is an active construction site. Only traffic to and from properties located within the work zone is allowed. Please use caution when passing workers and equipment.
