COMMUNITY DEVELOPMENT DEPARTMENT

The Community Development Director attended final presentations from a class of senior level marketing students who researched and provided recommendations on Brown Deer marketing efforts. The students and their professor will also prepare a final report and make a presentation to the Village Board on their findings and recommendations some time during the summer.

LIBRARY UPCOMING WEEK'S ACTIVITIES:

Rainbow Soup! Sat., May 14th & Sun. May 29th

Want to see some gorgeous artwork? The Brown Deer Schools are once again doing their Rainbow Soup art show hosted by the Brown Deer Library. Artwork from both schools are being displayed in our Community Room, and is open to the public.

Preschool Storytime!

Time to get your kids ready for this summer's storytime where we will embark on great imaginary journeys & construct awesome crafts.

Please register your child for storytime before attending. Space is limited, and crafts are only for those who are registered. You can register at the Reference Desk, or by calling 414-357-0106. Our story times are aimed towards pre-school aged children. Children must be accompanied by a parent or caregiver.

**Storytimes will be: Mon. 10:30-11:30am June 13th–Aug. 8th
Wed. 10:30-11:30am June 15th–Aug. 10th**

(There will be no story times on July 4th or 6th)

Daycare groups are required to pre-register with the children's librarian for a **separate** storytime. **There is a limit of 1 of these special story times per session.**

Did you know the library has some unusual items for check out? With your library card you can check out our

bags game, which includes the boards & bags in a handy carrying case, perfect for your backyard barbeques this summer. Your library card can also allow you to check out one of our disc/Frisbee golf sets. The sets incl. 3 different weighted Frisbees along with some helpful sheets about courses nearby. And our final unusual item is eReaders. You can check out a Kindle Fire to try out at your leisure. All of these items are avail for a 7-day check out

Saturdays from 10am to 5pm

For further info regarding the recycling center hours please call the DPW office at 414.357.0120

Weekly Health Tips

The Wisconsin Division of Public Health monitors dead birds for West Nile Virus (WNV) as an early warning system to indicate that the virus may be present in an area. This information is important to heighten awareness in the prevention & control of WNV disease.

People can report dead corvids (crow or jay) found near their homes to the following hotline: 800-433-1610

This hotline is available from May thru October.

NORTH SHORE HEALTH DEPARTMENT

May is Lyme Disease Awareness Month. Lyme disease is caused by the spirochete bacterium *Borrelia burgdorferi*. It is transmitted through the bite of certain species of blacklegged ticks. The geographic distribution of Lyme disease is highly regional--approximately 95% of confirmed Lyme disease cases are reported from the upper Midwest, New England, and the mid-Atlantic states.

There were 984 confirmed cases of Lyme disease in Wisconsin in 2014, with the highest number of cases occurring in June and July. Residents and travelers in areas where Lyme disease is common—including areas in Northern Wisconsin--should protect themselves. To help prevent Lyme disease, the CDC recommends avoiding areas with tall grass and brush where ticks are common; applying repellents that contain at least 20%–30% DEET; wearing clothing treated with 0.5% permethrin; showering soon after coming indoors; and seeking health care promptly if symptoms of Lyme disease develop, including fever, rash, and muscle or joint pain.

For more information on Lyme Disease, including photos of blacklegged ticks, what the characteristic Erythema migrans rash looks like, and how to safely remove a tick, visit www.cdc.gov/lyme/. For a map showing Lyme disease incidence in Wisconsin by county, visit www.dhs.wisconsin.gov/tickborne/lyme/2014data.htm

Last week at the North Shore Health Department

- Public Health Nurses attended the statewide Tuberculosis Summit in Verona, WI hosted by Mayo Clinic and Public Health Madison & Dane County. Information included complex TB cases, diagnosis and treatment, side effects & case studies, and a survivor's story on living with Multidrug-resistant Tuberculosis. The North Shore Health Department provides case management to residents with active and latent TB. In 2015, Health Department staff spent more than 270 person-hours managing active and latent TB cases.
- The Public Health Manager lectured to a Public Health Policy and Administration class at UW-Milwaukee's Zilber School of Public Health about Emergency Preparedness and Risk Communication. The Health Department partners with academic institutions in the Milwaukee area to share our skills and to provide learning experiences to students.
- The Health Officer/Director attended the Prevention Suicide Wisconsin Annual Conference. In 2015, the Health Department received grant funds through the federal Maternal Child Health Block Grant Program to address suicide and mental health by promoting the Question, Persuade, and Refer Program (QPR).
