Village Feasibility Study – Update

After conducting a Feasibility Study on Brown Deer municipal buildings, consultants from Bray Architects identified the pressing need for major repairs and upgrades to the Department of Public Works Complex.

From this analysis two viable alternatives were presented to the Village Board: 1) Repair the current 1966 Public Works buildings in the Original Village neighborhood or 2) Pursue the construction of a new facility south of the existing Village Hall site.

The Village Board has directed Village staff and Bray Architects to further present these findings to the public. Residents are invited to any of the following events to gain an understanding of the issues and alternatives:

August 26, 2015: 5 – 7:00 p.m.
Public Information Session
Community Center
4355 W. Bradley Road

September 12, 2015: 10 a.m. - 5:00 p.m.
Public Works Building Open House
8717 N. 43rd Street
(Behind the North Shore Fire Department)
