NORTH SHORE HEALTH DEPARTMENT

The NSHD maintains an immunization program to prevent & control vaccine-preventable diseases. Under this program, the NSHD provides immunizations to children without medical insurance & to private payers. The NSHD offers five

immunization clinics each month for residents. Additionally, the NSHD works with families, schools, & day care providers to ensure enrolled children are up-to-date on their immunizations & compliant with the WI Immunization Law. We are currently working with the school districts in the North Shore to help their students connect with area healthcare providers or with our public health nurses to be fully immunized. Parents and guardians are encouraged to review their child's immunization record at the WI Immunization Registry (WIR). WIR is a secure, Internet-based data system that records & tracks the immunization records of WI children and adults. Parents can access their child's immunization records as long as the child's social security number or Medicaid ID is entered into WIR.

STEPS:

1. Go to www.dhs.wisconsin.gov/immunization/wir.htm
2. Once you are in WIR, look for the title Public Immunization Record Access. click on it
3. Once the page loads, look for registry and click on it
4. You should see Hot Topics and Public Immunization Record. Inside Public Immunization Record, click on Public Immunization Record.
5. The next screen should allow you to type in the first and last name and birth date of your child
6. Next you will have the option to use either your child's social security number or a Medicaid ID. (Your child's SS# will be blocked from anyone else trying to access WIR)
7. Once you are done entering your child's information, press Enter; You should be able to view the immunization record
8. If you have any difficulties or questions accessing WIR, please feel free to contact us at <https://chimc.wordpress.com/the-team/> or contact WIR directly at 608-266-1865.

Living with Urban Coyotes

A collaborative effort between Milwaukee County Parks, University of Wisconsin-Madison's Urban Canid Project, and the Wisconsin Department of Natural Resources.

Why are urban coyotes important? How can we prevent conflict? What is effective management?

These are just some of the many questions that will be addressed during this educational program series hosted by the Milwaukee County Parks Department. Urban wildlife researchers from the University of Wisconsin-Madison's Urban Canid Project will discuss urban coyote ecology, human-coyote conflict and behavior modification, as well as proactive coyote management. Please join us for one of the programs listed below, no registration is required.
