## COMMUNITY DEVELOPMENT DEPARTMENT

- The Development Director attended a second round of student presentations at Marquette University from senior level marketing students who worked on projects to identify new marketing ideas for the Village. The students and professor will be presenting their findings to the Village Board in June.
- Plans for a new Chinese carry-out restaurant were submitted to Building Inspection for review. The new restaurant would be located at 7979 N. Sherman Blvd. in the Bradley Village Shopping Center.
- Wade Weissmann Architecture is expanding their offices and adding new work space in the lower level of their building at 8655 N. Deerwood drive. Remodeling and inspections are underway.
- Work has begun at the new Aldi grocery store at 6720 W. Brown Deer Road in the southeast corner of the old American TV lot. They are targeting a late September/October opening.
- The Zoning and Planning Specialist inspected the properties housing the Badger Fuel & Auto and Celebrations Banquet Hall businesses, at 4720 and 4740 W. Bradley Rd., respectively. The inspections were executed in response to the receipt of several complaints concerning the failure to maintain the exterior appearance of the properties to the specifications outlined in respective developer agreements and Conditional Use Permits. Several violations were recorded at both locations and the Community Services Department will be working closely with the owners of these businesses to improve compliance with Village codes, developer agreements, and Conditional Use Permits on file at Village Hall.

## **NORTH SHORE HEALTH DEPARTMENT**

**May is Teen Pregnancy Prevention Month** and the U.S. Department of Health and Human Services (HHS) is doing a lot to raise awareness. A recent report released by the Centers for Disease Control and Prevention (CDC) found that teen birth rates fell during 2007–2010. The report showed that:

- The U.S. teen birth rate declined 9 percent from 2009 to 2010, reaching a historic low at 34.3 births per 1,000 women aged 15–19; the rate dropped 44 percent from 1991 through 2010.
- Teen birth rates by age and race and Hispanic origin were lower in 2010 than ever reported in the United States.
- Fewer babies were born to teenagers in 2010 than in any year since 1946. If the teen birth rates observed in 1991 had not declined through 2010 as they did, there would have been an estimated 3.4 million additional births to teens during 1992–2010

By preventing teen and unplanned pregnancy, we can significantly improve other serious social problems including poverty, child abuse and neglect, low birth weight, school failure, and poor preparation for the workforce. To learn more and how you can get involved visit:

- The Public Health Manager attended a meeting with representatives from other health departments, hospitals, and emergency management in Southeastern Wisconsin to review plans for a disaster involving mass fatalities. In addition to reviewing the plans for each jurisdiction, the group discussed gaps and determined areas to focus on for additional development. Though not something anyone likes to think about, it is reassuring to know that the North Shore Health Dept. has strategies outlined and connections formed in the event of a catastrophic accident or communicable disease outbreak.
- The Health Department partnered with Shorewood Recreation Department for the first annual Bike Rodeo in Shorewood on Saturday, May 7th. Children between the ages of about 5 and 12 learned how to bike safely by practicing skills that may help them avoid some common bike riding accidents. Health Department staff also participated in a bike rodeo in Milwaukee sponsored through SafeKids coalition.
- The North Shore Health Department released the **Annual Report for 2015**. The full report is available on our website at [www.nshealthdept.org](http://www.nshealthdept.org)
- Public Health Nurses attended the open house at Laurel Oaks in Glendale. The nurses were able to use this opportunity to discuss our initiative to increase adult immunization rates and talk about the importance of the pneumococcal vaccine.
