Weekly Health Tips

Water is an essential element for survival and, therefore, a necessary item in an emergency supply kit.

Following a water outage, clean drinking water may not be available.

Build a supply of water that will meet your family's needs during an emergency.

The ready.gov website at www.ready.gov/water can help you determine your water needs.

NORTH SHORE HEALTH DEPARTMENT

DID YOU KNOW?

September is National Preparedness Month, culminating on September 30th, with National Preparedness Day—the national day of action. We must all take action to prepare, now and throughout the year, for natural or man-made emergencies that could affect us where we live, work, and also where we visit. In addition to securing enough food and clean water to last two weeks, there are other simple steps you can take to better prepare your family. This year's theme centers around emergency communication plans. Your family may not be together if a disaster strikes, so it is important to develop a communication plan just in case. The Department of Homeland Security provides tips on creating your own preparedness plan at: www.ready.gov/make-a-plan

Have a smart phone? Download the FEMA App to create a personalized preparedness checklist, track severe weather, learn about resources available during a disaster, and share photos to help first responders. Get it here: www.fema.gov/mobile-app

MORE TIPS ON READING YOUR FAMILY FOR AN EMERGENCY can be found on our website's Preparedness page at www.nshealthdept.org/Preparedness.aspx

The Health Department completed the annual beach monitoring of Doctor's, Klode and Atwater Parks. This summer we tested all three beaches 28 times. There were no days where the bacteria level was elevated enough to close any beaches, although there were two days where levels at Atwater were high enough to post a water quality advisory.

Health Department staff attended Bayside's Village Picnic, where information on lead exposure was provided. This was our last community event of the summer. More information on lead can be found at www.dhs.wisconsin.gov/lead/index.htm.

The first day of fall, Thursday, September 22nd, is **Fall Prevention Awareness Day**. Both offices will be offering free fall risk screenings from 9:00 am- 3:00 pm. Call for an appointment.
