

WEEKLY DEPARTMENTAL REPORT

COMMITTEE: Village Manager/Board, Finance/Public Works, Traffic/Public Safety, Beautification

PREPARED BY: Matthew S. Maederer, PE, Director of Public Works/Village Engineer

REPORT DATE: July 30th, 2020

GENERAL: The DPW hired a new fleet mechanic. Roger Johnson retired after servicing the Village's entire fleet (including Police Dept.) for 21-years! Matt Streim is the new mechanic and we welcome him from Shorewood where he was their lead mechanic. Matt will start working on Monday August 10th. We are very excited to make Matt a part of our team!

The Director attended a coordination meeting related to construction staging as part of the STH 57 and STH 100 reconstruction project and urban interchange removal. The project is expected to start in 2022 and be complete by 2023.

WINTER OPERATIONS: The 2020-2021 salt bid was received by WisDOT. The Village ordered 1,000-tons if guaranteed fill salt for the season with 200-tons of salt on reserve. This season's price is \$73.32/ton (last season's price was \$72.59). DPW has a reserve of 900-tons in the dome currently. We use on average 1,000 tons of salt per season.

SANITARY SEWER: A pipe fracture was discovered on Cedarburg Road after a resident reported a sinkhole. The pipe will be CIPP lined and the sinkhole filled with slurry before asphalt paving.

The Sanitary Sewer Technician is inspecting manholes (storm and sanitary) in the Meadowside subdivision. Manhole repairs will occur this summer/fall of 2020.

The Director is working on the 2020 Cured In-Place Pipe (CIPP) lining project which will take place in the Bradley Estates subdivision later this fall. All the sewer mains will be lined, and some pipes are being analyzed for capacity.

The Sanitary Sewer Technician is working on routine pipe cleaning in Basins 4004 & 4006.

STORMWATER: The street sweeper is running on the curb and gutter roadways as per the Village's stormwater MS4 permit with the WDNR along with Village owned parking lots and porous asphalt.

The DPW crew is working on catch basin repairs on the north side of W. Bradley Road between N. 51st Street and N. 60th Street ahead of this summer's re-paving project.

The DPW crew completed restoration efforts around the driveway culverts that were replaced as part of driveway approach permits.

REMINDER: All culvert replacements and driveway approach paving work requires a permit. Culvert replacements are completed in-house by DPW crews ahead of the residential driveway approach paving. Please contact the DPW office for more information.

BEAUTIFICATION/FORESTRY: The Village's grass mowing contractor, Fox Services, completed a median mowing the week ending July 27th. The Village crews mowed grass at the DPW, Library, and Bradley Road.

STREETS & TRAFFIC: The Engineering Technician is working on the 2020 roadway re-paving program bidding documents and streets list along with estimating the public improvements in the Original Village as part of the F-Street development project at the old DPW site. Public improvements include, but are not limited to, sidewalk addition on N. 43rd Street and angle on-street parking addition along Deerwood Drive south of Larry's to Peabody's/Wade Weissman.

The DPW crew is filling potholes as time allows.

REFUSE AND RECYCLING: The Village Board adopted a fine of \$100 for illegal dumping at the Recycling Center.

The Village received the annual recycling grant award from the WDNR. The amount is for \$43,675.78 which helps offset the costs of the Village's recycling program and allows the annual recycling charge to remain at \$80/year for homeowners.

The DPW crew was out picking litter in the public right-of-way the week of June 26. Special attention was given to the main highways (i.e. Brown Deer Road, Green Bay Road, Teutonia, and Sherman).

The DPW crew services the new Recycling Center each morning. The crew condenses all the bins and removes the brush from the brush pile area. Advanced Disposal changes out/empties all the 20-yd containers each day.

The new Recycling Center is active! The Recycling Center is operating at the new DPW location, 8950 N. Arbon Drive.

Residents are able to visit the new Recycling Center seven days a week from 7AM – 7PM!

Entrance to the Recycling Center will be off the Arbon Drive cul-de-sac to the south of the new DPW and will require an access card to be swiped at the gate. Residents of single-family homes and condominiums can apply now for the access card at the DPW, Village Hall or the Recycling Center. Cards will be made available to residents and can be picked-up in person at the DPW office (one card per household).

**During times of adverse weather, the Recycling Center may close.*

Access card application forms are available at:

- [RECYCLING CENTER ACCESS CARD APP](#)
- Village Hall, 4800 W. Green Brook Drive
- Dept of Public Works, 8950 N. Arbon Drive
- Village Hall Lobby (open 24-hours)

Completed application forms should be dropped off at Village Hall in the "after-hours" drop box or at the new DPW office. Please contact Erika at the DPW with any questions 414.371.3020.

PARKS & RECREATION: No Update.
